

# 'E' type facts and figures

An easy-reference guide to how many, how fast and how to identify models by serial number.

## Build dates, serial numbers and performance data

TYPE	BODY	PRODUCED From To	CHASSIS NO. RHD	COMMENCED LHD	Eng No. refix.	0-60 Secs	Max Speed MPH

S3	2P2	14.6	15.2	8-9	29½	£3,387

## Location of numbers

Chassis number stamped on right-hand frame cross member. Body number stamped on a plate attached to right hand side of scuttle. Engine number stamped on right-hand side of the cylinder

block above the oil filter and at the front of the cylinder head casing. All data contained on identification plate in engine compartment on firewall or adjacent to sill which should be checked against numbers on components as above.

Note: performance data relates to contemporary magazine road tests and, especially in the case of early cars, may not be fully representative of production examples.
